,

➤ Any topic that boils down to a simple preference or taste comparison. For example,

“Which tastes better: Coke or Pepsi?”

- Consumer product testing of the “Which is best?” type. This includes comparisons of popcorn, bubble gum, make-up, detergents, cleaning products, and paper towels.
- Any topic that requires people to recall what they did in the past
- Effect of colored light on plants
- Effect of music or talking to plants
- Effect of running, music, video games, or almost anything on blood pressure

➤ Effect of color on memory, emotion, mood, taste strength, etc.

Why

want in a science fair project. They are more of a survey than an experiment

These projects only have scientific validity if the investigator fully

Science Fair Project Proposal Form

Due _____

Name of Participant _____

The question I plan to investigate for my science fair experiment is : (phrase as a question)

Science Fair Project Question Check List

- | | |
|---|---------|
| 1. Does this experiment meet the teacher's requirements for this project? | Yes/ No |
| 2. Is this topic interesting enough to work on for the next 10 weeks? | Yes/ No |
| 3. Can you easily measure the responding variable in this experiment using a number that represents a quantity such as percent, length, mass, work, speed, voltage, energy, time etc... or present/ not present | Yes/ No |
| 4. Does this experiment test one and only one variable? | Yes/ No |
| 5. Is this experiment approved by your parents/guardian(s)? | Yes/ No |
| 6. Do you have access and/or means to obtain all the materials you will need to perform this experiment? | Yes/ No |
| 7. Will you be able to perform this experiment more than once in the 10weeks before the project is due? | Yes/ No |
| 8. Are you planning to enter the school science fair? | Yes/ No |

***** You do not have to enter the science fair, but every student must do a science fair experiment! *****

Will you be able to enter the Regional and/ State Science Fair? Yes/ No

SCIENCE FAIR RULES

Remember! Of course there are rules, this is made by adults!

1. Number one rule... think safety first before you start. Make sure you have recruited adults to help you.
2. Never eat or drink during an experiment and always keep your work area clean.
3. Wear protective goggles when doing any experiment that could lead to eye injury
4. Do not touch, taste, or inhale chemicals or chemical solutions.
5. Respect all life forms. Animals are not allowed to be used in experiments. Do not

Science Fair Oral Presentation

A lot of students are afraid of speaking in public to a teacher/judge. Just imagine they are a fellow scientist who just wants you to share what you have learned.

Relax smile, and have fun. Remember, you are the expert and you had fun doing the project. But if you are a little nervous, we have listed some things that you need to do during the presentation.

Helpful Hints:

Science Fair Abstract

- Write out your hypothesis in proper IF...THEN form.
- Include all relevant background information on the subject of the experiment. (Books you read, internet research, etc.)
- Describe your project

Do:

- a page in length
typed, double spaced

- 12 Times New Roman

Don't:

- list the method for your procedure step by step
- hand write
- turn in late (only half credit)

Projects must be at middle school level (no volcanoes, solar system models, etc.)

Be careful with materials used (human, animal, or live)

Project must be original work (no project ideas online, test results and writing must be original work)

The written report is a summary of everything that you did to investigate your topic. The written report provides others with vital information on what your project is about as well as its effect on your understanding of the topic. Usually the written report is 5-30 pages in length. All information must be included in the written report. This
